

We can do a lot for you

-Our experience is your benefit

Units and Systems for the Industry

- Dosing
- Fire protection
- Gas - and airdrying
- Liquid and Gas Filters
- Glycol Regeneration
- Heat transfer units (water, steam, oil, salt ect)
- H2S Degassing Units for Sulphur

Apparatus Construction

- Pressure Vessels, Heat Exchangers
- Gas- and Liquid filters, Dust/bag Filters
- Separators, coalescer
- Strainers
- Cooling equipment for samplers,
- Special constructions for steam and condensate
- Heat covers for pumps and valves

Electrical heat tracing

- Electrical tracing for pipes, vessels, reactors and Columns
- Tracing of instrument lines
- Solutions for all heat transfer problems.
- Tank heaters

Heat tracing

- Steam tracing for all industrial plants
- Warm and hot water systems
- All types of tank heaters
- Solutions for all heat transfer problems

Revamps, installation and maintenance

- General piping
- Heat tracing
- Revamps of Columns an Reactors
- Installation of internals for columns and reactors
- Electrical and Instrumentation
- Shut down and maintenance, organisation and service
- Controlling
- Infrared heat measuring and control

Special parts

- Heat shields (Ni)
- Ceramic coatings
- Demisting units
- Filter hoses
- Mixer
- Breaker
- Electric heating equipment, explosion proof
- Parts for heat transfer
